# Style guide

---

November 2015  
v1.0; CC BY 4.0

## Introduction

---

Our visual identity is a core part of our user experience, so it's important to us that it be used correctly.

This style guide has been put together to give you all you need to start crafting designs that properly reflect our work and values.

It is a **guide**, and there will be situations we can't anticipate where you might need to bend the rules. That's okay, just drop us a line.

## Contacts

---

If you have any questions,  
or need clarification drop

## Logo

### LOGOTYPE

Our logo can be used in any of our primary colors, although green is the preferred colorway

# Simply Secure

Simply Secure      Simply Secure

### HORIZONTAL LAYOUT

The horizontal logo is our preferred one, use this unless horizontal space is restricted

Simply Secure

Standard

Reversed

### MINIMUM SPACING

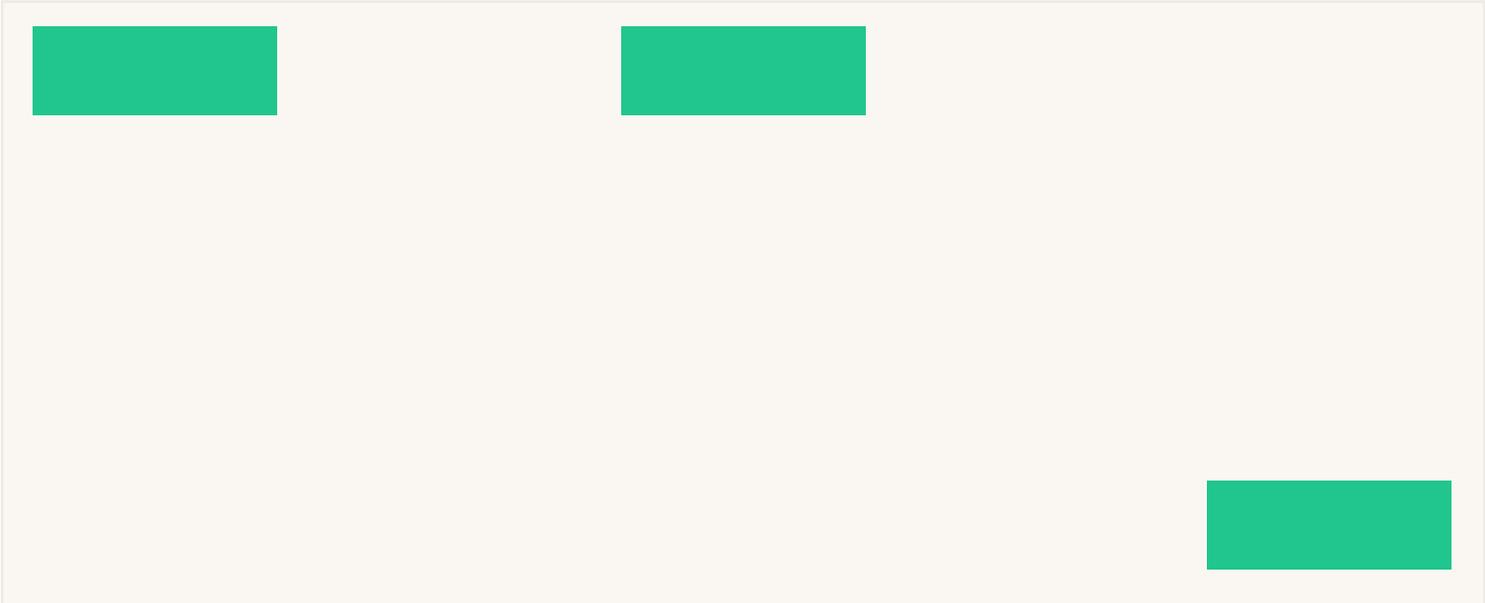

As a minimum the logo should have surrounding space about the width of the 'e' character in the logo. Vertically this is measured from the x-height of the type (the letter 'm')

# Logo placement

## IN PRINT

Top-left, centre-top or bottom-right are the preferred locations for our logo. Use whichever placement makes sense in the context of the design

## OVER PHOTOGRAPHY

Use a white or black transparent logo if it can be placed in a preferred location and remain legible

If the logo can't be placed on the photo in a legible way, use a primary color background strip with a white logo

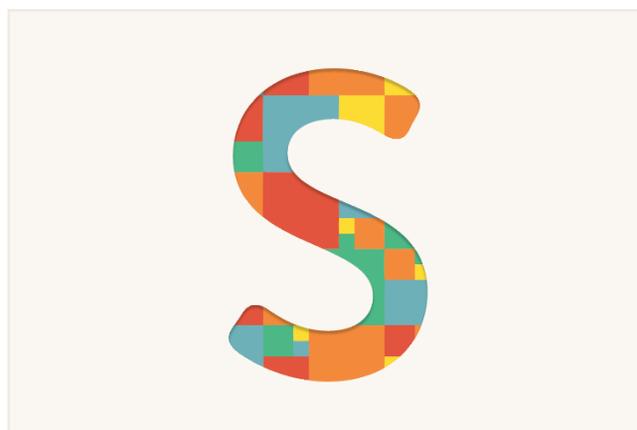

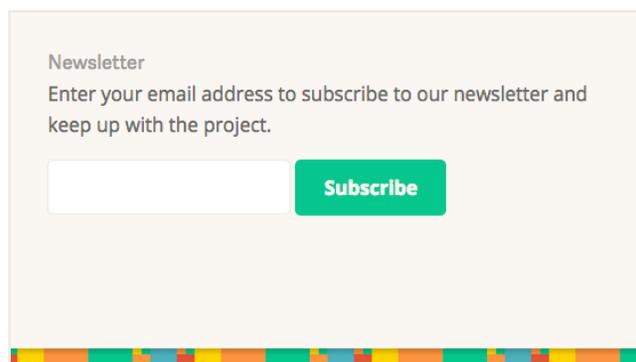

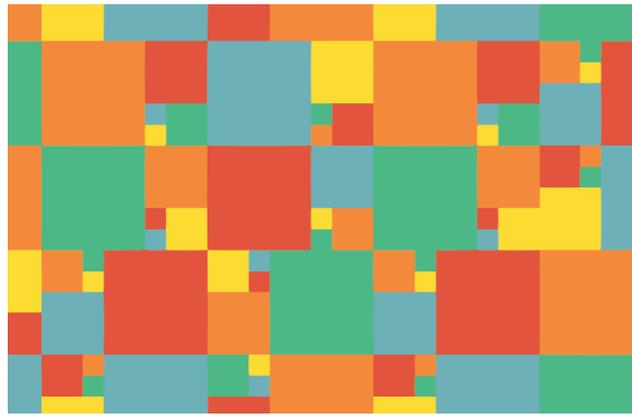

## Fibonacci pattern

Our pattern is derived from the Fibonacci sequence, a homage to a fundamental part of cryptographic science

It shows that information security is the foundation of everything we do with the pattern peaking from beneath designs and spilling over borders

Examples of the Fibonacci pattern in use on our website and business cards

## Logo tab

The tab isn't a replacement for our logo, but can be used in promotional materials and signage to add some "brand color"

We've used it in the past for social media avatars and sticker designs

### HEADING 1

Roboto bold @ 54px

# Security's got to be easy and intuitive

### HEADING 2

Roboto bold @ 40px

## Security's got to be easy and intuitive

### HEADING 3

#### Security's got to be easy and intuitive

### BODY TEXT

Roboto regular @ 17px

We are a service organization that works with users, software developers, user-experience experts, designers, and the community of people striving to make ubiquitous privacy and security a reality. We seek to understand existing challenges – while collaboratively developing resources and ideas that move us all toward our goal – and we're hitting the ground running.

# Quotes

---

## STANDARD QUOTE

Roboto regular @ 20px

Dark grey

Mid grey

“ We seek to understand existing challenges – while collaboratively developing resources and ideas that move us all toward our goal – and we’re hitting the ground running.

## REVERSED QUOTE

Roboto regular @ 20px

White

White @ 50% alpha

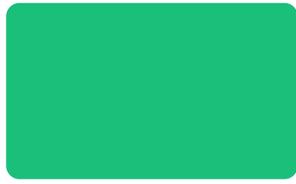

“ We seek to understand existing challenges – while collaboratively developing resources and ideas that move us all toward our goal – and we’re hitting the ground running.

“ We seek to understand existing challenges – while collaboratively developing resources and ideas that move us all toward our goal – and we’re hitting the ground running.

# Colors

Our colors are bright and punchy. Combine them with warm, neutral shades to create a friendly, approachable color palette

## Primary colors

### Green

RGB: 26, 191, 122

HEX: #1ABF7A

CMYK: 86, 0, 36, 25

Pantone Solid Coated 7479 C

### Red

RGB: 232, 86, 64

HEX: #E85640

CMYK: 0, 63, 72, 9

Pantone Solid Coated 7625 C

### Blue

RGB: 63, 164, 174

HEX: #50B2BB

CMYK: 64, 6, 0, 32

Pantone Solid Coated 7709 C

## Secondary colors

### Orange

RGB: 250, 148, 73

HEX: #FA9449

CMYK: 0, 41, 71, 2

Pantone Solid Coated 715 C

### Yellow

RGB: 253, 205, 0

HEX: #FDCD00

CMYK: 0, 19, 100, 1

Pantone Solid Coated 7405 C

## Neutrals

### White

RGB: 255, 255, 255

HEX: #FFFFFF

CMYK: 0, 0, 0, 0

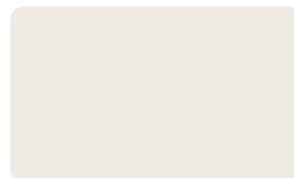

### Off-white

RGB: 250, 247, 242

HEX: #FAF7F2

CMYK: 0, 1, 3, 2

Pantone Coated Warm Gray 1 C

### Light gray

RGB: 239, 234, 227

HEX: #EFEAE3

CMYK: 0, 2, 5, 6

Pantone Uncoated 7527 U

### Mid gray

RGB: 157, 155, 152

HEX: #9D9B98

CMYK: 0, 1, 3, 38

Pantone Solid Uncoated Black 0961 U

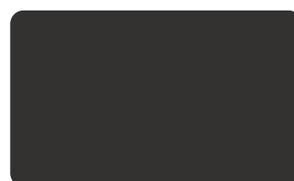

### Dark gray

RGB: 108, 107, 104

HEX: #6C6B68

CMYK: 0, 1, 4, 58

Pantone Solid Uncoated Black 7 U

### Black

RGB: 51, 50, 48

HEX: #333230

CMYK: 0, 2, 6, 80

Pantone Solid Uncoated Neutral Black U

Don't use the secondary colors by themselves, always try to pair them with a primary color

Use warm, neutral shades instead of cold grays. Use pure white to draw the eye (but sparingly!)

# Illustrations

Illustrations are a key part of our brand, we use them to add visual interest to our content.

## CHARACTERISTICS

- Flat colors
- Simple geometric shapes
- Simple shadowing
- Playful elements
