

**THREAT
MODELING
(30 mins)**

1 **Instructions**

1. Make sure you have a list of personas applicable to your tool or project.
2. In groups or individually, think through one assigned persona per board-- give them a name, age, and location.
3. Fill out the board by question with your persona's context in mind.

What do they need?

What do they want?

Implicit

Explicit

Name:
 Location:
 Age:
 Key Quote:

What do they do?

What could hurt them?
